THE VIRAL DUBAI chocolate

Packaging

Dubai's viral kunafa chocolate has captivated dessert lovers by blending the rich flavors of traditional Middle Eastern kunafa with the indulgence of modern chocolate. This sweet sensation features a crispy, golden kataifi base paired with layers of creamy pistachio or tahini-infused filling, all encased in smooth, melt-in-your-mouth chocolate. Its irresistible combination of textures and flavors has exploded in popularity, especially after social media videos showcasing its satisfying crunch and oozy center went viral. Now a must-try treat for tourists and locals alike, it symbolizes Dubai's flair for turning heritage desserts into global culinary trends.

VIRAL DUBAI CHOCO DATES

TEA CUP Printing

Tea cup printing is a specialized packaging and branding technique that involves printing custom designs, logos, or promotional messages directly onto tea cups, typically used in cafes, restaurants, or events. This method not only enhances brand visibility but also adds a professional and personalized touch to the beverage experience. Whether using paper, plastic, or ceramic cups, high-quality printing ensures vibrant colors and sharp details that reflect the brand's identity. Ideal for marketing, gifting, or special occasions, tea cup printing is an effective way to leave a lasting impression on customers.

Double Wall

Tea cup

double wall printing is

an advanced and visually appealing method of branding that involves printing high-quality designs, logos, slogans, or artwork onto double-walled tea cups. These cups are specifically engineered with two layers—an inner layer that holds the hot beverage and an outer layer that acts as insulation, keeping the drink warm while preventing the outer surface from becoming too hot to handle. This construction not only offers practical thermal benefits but also provides a premium canvas for vibrant, long-lasting prints that resist smudging and fading. Double wall cups are popular in cafes, tea shops, offices, and events where both functionality and aesthetics are important. Custom printed double wall tea cups create a memorable customer experience by reinforcing brand identity in every sip, making them ideal for marketing, seasonal promotions, corporate giveaways, or personalized gift packaging. The extra surface area and durability of the double walls allow for detailed, professional designs that elevate the perceived quality of the beverage and the brand behind it.

PREMIUM HOOKAH TOBACCO *Packaging*

PREMIUM HOOKAH TOBACCO hookah, also known as shisha or waterpipe, is a traditional method of smoking flavored tobacco that has deep cultural roots in Middle Eastern, South Asian, and North African societies. Typically enjoyed in social settings, the hookah consists of a water-filled base, a bowl for tobacco, and a hose through which the smoke is inhaled. The tobacco, often infused with fruity or herbal flavors, is heated using charcoal, creating a smooth and aromatic smoke that is cooled by the water before inhalation. Over time, hookah has gained global popularity, becoming a staple of lounges and gatherings, especially among younger crowds seeking a relaxed, communal experience.

Burger box Packaging

Burger box printing and packaging play a crucial role in enhancing a brand's identity while ensuring product safety and freshness. Custom-printed boxes not only serve as an effective marketing tool with eye-catching designs and logos, but also provide essential functionality—maintaining heat, resisting grease, and being easy to stack and carry. High-quality packaging adds a professional touch that appeals to customers, boosts brand recall, and reflects the company's commitment to hygiene and sustainability, especially when using eco-friendly materials.

OUR PRODUCTION CORE COMPETENCIES

Low trade prices

We are in position to set our own trade prices as we fully control production and delivery costs which gives us a huge advantage over competitors.

Safety and quality

We take quality and safety very seriously therefore we are constantly carrying out inspections throughout the entire process. We track and monitor every element prior, during and after production.

On time delivery

Cut out the middle man and decrease delivery turnaround as we ship directly from our manufacturing site and warehouses eliminating all logistics issues.

Testing

We measure and record the performance of all raw materials, adhesives, coatings and manufacturing settings. All materials are thoroughly checked and tested in our laboratories before going to production.

Maximum flexibility

We are able to react to market changes and customer demands rapidly and apply new business processes instantaneously instead of having to contact 3rd parties and manufacturers on the other side of the world.

Tailor made packaging

Bespoke packaging processes are implemented easily and quickly through our in-house RnD department limiting error possibilities and time delays.

Thank you

About us

National Offset Printing Press, a leading printing press located in the heart of Dubai. With 20 years of experience in the printing industry, we have been serving clients across the GCC with high-quality printing services. At National Offset Printing Press, we specialize in Packages Printing, Stationary Offset Printing, Digital Printing, and a wide range of other printing services. We use the latest technology, equipment, and software to ensure that your printing needs are met with the utmost accuracy and precision.
